### Forecast for Saturday 06 Jan 2024

**Weather:** Clear periods, patchy frost and valley fog at first, this will be slow to clear in places. Then mainly dry and bright today, although the eastern side of the National Park may have more cloud and isolated showers, this spreading westwards across remaining areas this evening.

**Chance of cloud-free hill tops above 600m:** 90%, decreasing to 50% this evening.

**Low Cloud and visibility:** Generally good visibility but some patchy fog in the valleys at first, this slow to clear. Some patchy low cloud above 400m may affect the east, most likely this evening.
