

FPUK86 EGRR 040630
Forecast for the UK.
Issued by the Met Office
at 0700 on Friday 4 August 2006

** Valid for Broadcast at 0858 **

Here is the forecast for the United Kingdom until dawn tomorrow :
Central, eastern, southern England, and eastern Scotland will be dry
on Friday, with spells of warm sunshine. Cloudier across northern and
western areas, and here there will be some rain at times. Staying
cloudy in the west and north overnight into Saturday and although
there will be a lot of dry weather around, some light rain or drizzle
is still possible. Elsewhere, staying dry with clear spells.

Outlook for Saturday and Sunday:

England and Wales largely dry on Saturday and for much of Sunday with
sunny spells. Cloudier elsewhere with some rain, this moving south
later on Sunday. Warm or very warm in the south.
