Forecast for Tuesday 06 Sep 2022

Weather: Rather cloudy with scattered lighter showers in the morning, becoming more frequent and heavier in the afternoon the evening. The heaviest showers are likely to be over Cairngorms with small risk of thunderstorms, whereas in west of area towards Creag Meagaidh for example, showers will be fewer with a bit more in the way of sunshine.

Chance of cloud-free hill tops above 800m: 50%, best in west of area.

Low cloud and visibility: Good visibility with occasional cloud cover above about 700m, but marked deteriorations to poor visibility as showers come along with extensive clouds lower down the hills.

Met Office Aberdeen Meteorologist's View

Some difficult walking conditions due to a strong wind on the tops and also increasing risk during the day of catching a heavy shower, especially in east of area.

Forecast for Wednesday 07 Sep 2022

Weather: Another day of bright spells and scattered showers. The showers generally few and light in the morning then more frequent and heavier in the afternoon and early evening. Again the east of the area will see the greatest risk of heavy showers.

Maximum wind: Southeast winds with average speeds of 20mph and gusts 35mph on the tops.

Chance of cloud-free hill tops above 800m: 50%, best chances in west of area.

Low cloud and visibility: Generally good visibility with occasional fog above about 700m. Interruptions to poor visibility as heavier showers pass by with clouds lowering to about 600m.

Temperature: **Glens:** 14 Celsius rising to 19 Celsius.
At 800m: Plus 13 Celsius.
Freezing level: Staying well above the summits.
