Forecast for Sunday 07 Jan 2024

Weather: Most staying dry with the best of the weak winter sunshine expected across western ranges. The few light showers that do appear, snow level 400-500m, will be focused across the cloudier east and north of the Park area.

Chance of cloud-free hill tops above 600m: 90% in south and west 70% in east

Low cloud and visibility: Good or very good becoming moderate or poor in rain showers, very poor in snow showers and within cloud with bases quite occasionally lowering 600m in the east, infrequently so in west.
