Meteorologist's View

Mild and rather humid day with some heavier rain this afternoon bringing uncomfortable walking conditions. Becoming windy at height, and there could also be stronger more gusty winds at lower levels on leeward slopes.

Forecast for Tuesday 09 Nov 2021

Weather: Cloudy, with extensive hill fog and further rain, still heavy at times, but clearing late afternoon with clear spells developing in the evening though a few showers too.

Maximum wind: Southwest 30-35 gust 45mph. Turning westerly and easing 10-20mph after dark.

Chance of cloud free mountain/hill tops above 800m: Almost nil, but becoming 60 or 70% after dark.

Visibility: Perhaps occasionally good at low levels, but mostly moderate or poor and very poor above 300 or 400m through most of the day, with extensive cloud and fog. Mainly good in evening.

Temperature: **Valleys:** Plus 10 or 11 C, decreasing plus 7 C later

At 800m: Plus 7 C, later plus 4 C

Freezing level: Above summits
