### Forecast for Thursday 01 Dec 2022

**Weather:** A cloudy day with some occasional rain, this dying out from the west from mid-afternoon.

**Chance of cloud-free hill tops above 800m:** 40%, best chance in the north of the region

**Low cloud and visibility:** Poor across Rannoch Moor and Ben Alder, and later the Monadhliath with extensive cloud down to 600 metres. East of the A9 across the Cairngorms patchy cloud around 800 metres, with some clear summits likely across the Monadhliath too although low cloud encroaching here towards late afternoon.

**Met Office Aberdeen Meteorologist's View**

Cold winds on the higher summits. Freezing level well above summit level.

**Forecast for Friday 02 Dec 2022**

**Weather:** Dry for most of the day but some patchy light rain will edge westwards from mid-afternoon onwards.

**Maximum wind:** Southerly 25 mph

**Chance of cloud-free hill tops above 800m:** 50%, best chance west of the A9

**Low cloud and visibility:** Rather hazy, especially across the Cairngorms. Patches between 400 and 800 metres in the morning, this becoming extensive from the east through the afternoon but some uncertainty in the timings of this.

**Temperature:** **Glens:** Zero rising to 7 Celsius  
**At 800m:** Plus 3 Celsius  
**Freezing level:** Above summits
