1901 June gauge raised to 2 ft

1908 Dec estimated

1909 I have taken over the gauge of the late A. J. Beaven but did not do so till April last as I have no record for the first 3 months. On Dec 23 the glass containing the rainfall was broken before the measure was taken. I have entered the record as .08 in. It will not be less & might be .10 in. as the gauge is close to a flower border with plants from 2 to 3 ft high in it. I have got the top of the gauge at 3 ft A. V. H. Beaven.
Holt Church 3/4 mile S
