Met Office Aberdeen Meteorologist’s View

Feeling bitterly cold with temperatures close to or below freezing at most levels. However walking will be easier in the lighter winds.

Forecast for Friday 05 Apr 2024

**Weather:** Dull start with sleet and snow and even temporary blizzard conditions on higher ridges, summits. Snow will become confined to higher peaks later in morning with rain lower down. Drier, brighter weather will follow from south later in the morning with blustery showers following in afternoon.

**Maximum wind:** Strong southeast winds at first, average speeds 30mph with gusts 50mph on the tops. Winds becoming southerly during morning with speeds decreasing to 20mph with gusts 35mph.

**Chance of cloud-free hill tops above 800m:** Little chance at first improving 60% by afternoon.

**Low Cloud and visibility:** Misty morning with very poor visibility in sleet, snow and clouds, well down the hills. Visibility improving good later in morning with clouds lifting then breaking at times in the afternoon.

**Temperature:**   **Glens:** Plus 2 Celsius rising to 12 Celsius during afternoon.  
                          **At 800m:** Minus 2 Celsius rising to plus 5 Celsius in afternoon.  
                          **Freezing level:** 500m rising to 1500m in the afternoon.
