Director - General

NOR.53X

Met. O.8C.

London Rd, Bracknell - RG.12.2SZ.

7th Dec. 1972.

Dear Mr. Calder

Very many thanks for your letter AF/M209/72/MO.8C dated 30th Nov, and enclosures, which were well worth waiting for! I am sorry I put you to so much trouble, some of which turned out fruitless. I am approaching a member of the same family as kept rainfall figures last century at Thurgarton, 5 miles north of Aylsham. He is one of my present day members of the Norfolk Rainfall Organisation which I run - If I get anything earlier than 1884 I will let you have a copy.

May be you would like to add to your Aylsham monthly records as I have got Mr Purdy's figures for 1883, as follows: - Jan. 1.22"; Feb. .84; March 1.16"; April .89; May .92"; June .77"; July 2.25; Aug. 1.37; Sept. 4.02; Oct. 3.48; Nov. 1.61; Dec. 2.32; Year 22.72" -

Please thank your Mr Bleasdale for his most interesting notes. I have already been in touch with Prof. Lamb & have extracted many weather notes from church & other sources covering the 17th century and earlier. This was new information for him. And I will tackle him on rainfall changes as suggested.

Again many thanks,

Yours sincerely

T. B. Norgate
