

National Severe Weather Warning Service

Chief Forecasters Assessment

Where snow is lying, freezing of thawing snow could provide an additional moisture source for icy surfaces.

The Met Office have issued a **Yellow Warning of Ice**

Valid from **19:20 on Wed, 07th Dec 2011** until **23:59 on Wed, 07th Dec 2011**

Following today's wintry showers, the public should be aware that ice is likely to form on untreated surfaces this evening.
