Forecast for Wednesday 02 Feb 2022

Weather: The majority will stay dry with only a little patchy light rain or drizzle appearing, largely restricted to western and northern peaks. Cloud breaks appearing most readily in south and east.

Chance of cloud-free hill tops above 600m: Ranging from 35% in northwest and 80% in southeast

Low cloud and visibility: Good or very good becoming moderate or poor in patchy rain and drizzle, very poor in hill fog with bases quite extensive above 500m in northwest, only sporadically so in southeast.
