### Forecast for Saturday 04 Nov 2023

**Weather:** A chance of some light rain and summit snow in the morning across Knoydart and Glen Shiel. Otherwise mainly dry with some bright or sunny spells, best of the sunshine across the far north, but turning cloudier in the afternoon in the southeast, with the odd shower. Mainly dry with some clear spells in the evening.

**Chance of cloud-free hill tops above 800m:** 40% in the south early morning, otherwise mostly 80-90%.

**Low cloud and visibility:** Visibility mostly very good with little if any cloud on the hills. A chance of poor visibility around and shortly after dawn in the far south, mainly around Knoydart and also in any showers in southeast later.

**Met Office Aberdeen Meteorologist's View**

Note cold summit temperatures despite the sunshine.

**Forecast for Sunday 05 Nov 2023**

**Weather:** Some patchy cloud through the early hours. Then a largely dry day inland with sunny spells. Scattered showers are likely along the west coast, wintery above munro level. Showers may spread a bit further inland overnight.

**Maximum wind:** South or southwest 5-10 mph.

**Chance of cloud-free hill tops above 800m:** 90% inland, 60% along the west coast.

**Low cloud and visibility:** Generally very good visibility with little if any cloud on the hills, but along the west coast, cloud bases may drop to affect the summits near passing showers.

**Temperature:** **Glens:** Plus 2 Celsius rising to 7 Celsius.

**At 800m:** Plus 1 Celsius rising to 3 Celsius. Falling to zero Celsius in the evening.

**Freezing level:** 1200m.
