

FPUK85 EGRR 011000
Forecast for the UK.
Issued by the Met Office
at 1000 on Monday 1 December 2003

** Valid for Broadcasts Between 1200 and 1800 **

Headline:

Rain in many places. Brighter in far northwest.

Today:

Rain affecting much of England, Wales, southern and eastern Scotland. Drier in southeast England whilst some sunshine is likely across parts of northwest Scotland and Northern Ireland. Scattered showers reaching eastern districts of Northern Ireland later.

Tonight:

Rain continuing across some northern and western parts. Much of England and Wales becoming dry.

Outlook for Tuesday:

Mostly cloudy but many places dry. Some patchy rain.
