### Forecast for Thursday 05 Aug 2021

**Weather:** Occasionally heavy rain spreads north in the early hours. Turning dry soon after dawn across eastern ranges, but showers in the west, most frequent south of Torridon. Scattered showers more widespread in the afternoon, some sunny spells in the far north, but a risk of thunder here too. A few showers continuing into the evening.

**Chance of cloud free mountain/hill tops above 800m:** 60% in the south, 80% in the north.

**Visibility:** Generally good outside of heavy showers or any low cloud. Patchy cloud mainly above 600m across Skye and southern ranges early morning, but soon lifting above the tops. Further patchy cloud lowering to 600-700m in the evening, mainly across southern ranges again.

**Met Office Aberdeen Meteorologist's View**

Moderate UV levels in the morning, and early afternoon across northern ranges, despite rather cloudy conditions.

**Forecast for Friday 06 Aug 2021**

**Weather:** Low cloud and patchy rain through the early hours across eastern ranges, largely dry with clear spells near the west coast. Scattered heavy showers by day with a risk of thunder. The showers heaviest and most frequent in the east, less frequent with good sunny spells near the west coast. Showers mostly dying out in the evening, some clear spells in the west.

**Maximum wind:** East 25-30 gusting 35-40 mph, but gusts of 45 mph possible near heavy thunderstorms. Winds easing to 20 gusting 30 mph in the evening.

**Chance of cloud free mountain/hill tops above 800m:** 20-30% in the east, 70% in the west.

**Visibility:** Poor in low cloud or passing heavy showers, but otherwise good. Cloud fairly extensive with bases 500m across Caithness and Easter Ross in the east in the morning, becoming more broken in the afternoon. Only occasional patchy cloud in the west, mainly above 600m.

**Temperature:** **Glens:** Plus 13 Celsius rising to 20 Celsius

**At 800m:** Plus 9 rising to 12 Celsius.

**Freezing level:** Above the summits.
