

FPUK85 EGRR 020400  
Forecast for the UK.  
Issued by the Met Office  
at 0400 on Sunday 2 July 2006

\*\* Valid for Broadcasts Between 0600 and 1200 \*\*

Headline:

Thunderstorms developing across northern and western areas. South very hot.

Today:

Northwest Scotland cloudy with outbreaks of rain. Elsewhere sunny spells, with scattered thunderstorms developing, these mainly across northern and western England, southern and southeast Scotland, Wales and perhaps Northern Ireland. Very hot again across much of England and Wales.

Tonight:

Many places dry, as thunderstorms slowly become isolated and lighter.

Outlook for Monday:

Thunderstorms developing across England and Wales. Otherwise mainly dry, often cloudy.
