Forecast for Wednesday 02 Feb 2022

Weather: The majority of hills will stay dry with only a little light rain or drizzle possible, largely restricted to western peaks. Cloud breaks appearing most readily across the eastern hills.

Chance of cloud-free hill tops above 600m: 40% in west, and 80% in the east

Low cloud and visibility: Mainly good views beneath the cloud. Visibility often very poor across many western summits, as cloud obscures tops above 600m, and perhaps also further east above 700m at times. Views also falling to be poor to moderate during any drizzle that occurs.

Forecast for Thursday 03 Feb 2022

Weather: Cloudy at times with occasional showers. These focused mainly across western hills and during the morning, before dwindling through the afternoon. Winds strengthening after dark as a band of heavy rain and strong gusty winds moves across much of Brecon Beacons by midnight.

Maximum wind: Westerly 20-25mph gusting 35mph, increasing to 30mph gusting 40-50mph by the evening, perhaps isolated gusts 50-60mph with band of rain overnight.

Chance of cloud-free hill tops 600m: 30% in west, increasing to 80% in east

Low cloud and visibility: Good across most routes, but becoming moderate or poor in showers. Falling very poor at height where cloud obscures the occasional top above 600m, most persistently and frequently in the west.

Temperature: **Valleys:** Plus 5 Celsius increasing to Plus 13 Celsius
At 600m: Plus 4 Celsius
Freezing level: Above summits.
