Forecast for Sunday 03 Jan 2021

Weather: The Ochils and southern Perthshire Hills will be dry in the morning with some sunshine. However the Aberdeenshire and Angus Hills will see snow showers, some of these drifting into northern Perthshire, then in the afternoon, an increasing chance of catching a few over the Ochils and the south of Perthshire as the winds veer round more to the east. Below about 400m the showers will be of rain or sleet though could still be of snow well inland to quite low levels.

Chance of cloud free mountain/hill tops above 800m: 80% in south in morning otherwise 20-30% with frequent cloud above 600m, often lowering to 400-500m in the east near showers.

Visibility: Good in the south during the morning. Mostly poor elsewhere with frequent whiteout conditions.

Met Office Aberdeen Meteorologist's View

Note the very low feels like temperatures. Deep snow drifts at high altitudes will make progress time consuming and arduous.

Forecast for Monday 04 Jan 2021

Weather: Still a few snow showers in the southern Perthshire Hills and the Ochils into the morning, otherwise dry with some sunshine the best of this across the Aberdeenshire Hills.

Maximum wind: Northeasterly becoming northerly 20 gusts 30mph.

Chance of cloud free mountain/hill tops above 800m: 70% - often clear but occasional patches on the tops mainly in the wake of showers.

Visibility: Mostly very good but dropping poor in morning snow showers in the south

Temperature: **Glens:** Minus 5 to Minus 10, rising to Plus 2 at best during the day and staying below freezing where snow cover at low levels
At 800m: Minus 3 Celsius.
Freezing level: 400m at first in south otherwise freezing at all levels.
