

This polar projection map of the Arctic region displays a complex weather system. The map features numerous low (L) and high (H) pressure systems, each with associated numerical values. Contour lines in green, pink, and blue represent isobars or other meteorological boundaries. Wind vectors are shown as blue arrows. The map includes a grid of latitude and longitude lines, with the North Pole at the center.

Key features include:

- Pressure Systems:** Numerous low (L) and high (H) pressure systems are marked with numerical values. Examples include L 201, H 199, L 306, H 98, L 129, H 100, L 153, L 156, L 160, L 157, L 148, H 193, L 327, L 324, L 332, L 374, H 385, L 134, L 127, H 231, L 232, L 208, L 336, L 332, L 263, L 402, L 399, L 359, L 342, L 358, L 396, L 268, L 146, H 311, H 179, L 408, L 227, L 365, L 159, L 150, L 140, L 130, L 120, L 110, L 100, L 90, L 80, L 70, L 60, L 50, L 40, L 30, L 20, L 10, L 0.
- Contour Lines:** Green, pink, and blue lines represent isobars or other meteorological boundaries.
- Wind Vectors:** Blue arrows indicate wind direction and speed.
- Grid:** A grid of latitude and longitude lines is overlaid on the map.
