

**Yellow warning  
Ice**

Between  
**22:00 Mon 3 Dec 2018** and  
**10:00 Tue 4 Dec 2018**

**Icy patches expected overnight and on Tuesday morning.****What to expect**

- Probably icy patches on some untreated roads, pavements and cycle paths
- Increased likelihood of injuries from slips and falls on icy surfaces

**Further details**

Showers will die out over northeast Scotland but leave a legacy of a little snow on higher routes, with ice forming on untreated surfaces. Showers will turn more frequent across western Scotland from midnight, so icy patches will form in places here too, lasting into Tuesday morning. Over hills and mountains showers are expected to be wintry.

**Reason for update**

Update to include parts of northeastern Scotland and bring forward the start time by two hours.

✓ Medium likelihood of low impacts
