

FPUK86 EGRR 031745  
Forecast for the UK.  
Issued by the Met Office  
at 1945 on Thursday 3 August 2006

\*\* Valid for Broadcast at 2159 \*\*

Here is the forecast for the United Kingdom for daytime tomorrow :  
Central and eastern England, as well as eastern Scotland, will have a dry, bright day with good sunny spells for most. However, further north and west, it will be somewhat cloudier with outbreaks of rain or drizzle, especially across Northern Ireland, extending east and south to many other western regions, reaching southwestern counties of England by evening. Generally rather warm or warm especially in sunshine, but a brisk northerly breeze keeping it a little cooler on exposed coasts of East Anglia and Kent.

Outlook for Saturday and Sunday:  
Southeastern parts, mainly dry, bright and warm but, further north and west, cloudier with rain or drizzle.
