### Forecast for Friday 08 Jul 2022

**Weather:** Low cloud through the early hours and heading into the morning with outbreaks of rain or drizzle, especially across western hills. Cloud will start to lift and break through the latter part of the morning or early-afternoon to give a dry and bright afternoon, although patchy low cloud may persist in the west. Strong westerly winds at height.

**Chance of cloud-free hill tops above 800m:** 10% until mid-morning, gradually improving to 70% by midday.

**Low cloud and visibility:** Widespread low cloud through the early hours and into the morning with bases down to 400 m. Cloud will slowly lift and break from mid-morning, but some low cloud down to 600 or 700 m may persist in the west. Moderate visibility through the first part of the morning, and very poor within low cloud. Visibility trending towards good by midday away from any low cloud in the west.

## Met Office Aberdeen Meteorologist's View

Nothing to add.

## Forecast for Saturday 09 Jul 2022

**Weather:** Cloudy through the early hours but mainly dry. Cloud tending to lift and break through the morning to leave a largely dry and bright day. Cloud may then build again later in the evening with some outbreaks of light rain overnight. Winds mostly lighter on the tops.

**Maximum wind:** Westerly, mean 20 mph gusting 30 mph.

**Chance of cloud-free hill tops above 800m:** 40% until mid-morning, improving 80% thereafter.

**Low cloud and visibility:** Occasional low cloud down to 600 m overnight and through the first part of the morning. Cloud then mainly above summits for much of the afternoon and evening. Further low cloud may spread in from the west from late-evening and overnight. Visibility generally good, but very poor within any low cloud.

**Temperature:** **Glens:** Plus 9 Celsius rising to plus 18 Celsius.  
**At 800m:** Plus 7 Celsius rising to plus 12 Celsius.  
**Freezing level:** Above summits.
