### Forecast for Friday 05 Nov 2021

**Weather:** Low cloud and patchy light rain at times through the early hours. Turning dry around dawn or soon after, but cloud persisting through the morning. Bright spells and the odd shower in the afternoon, best of the brightness in the east. A dry but cloudy evening.

**Chance of cloud free mountain/hill tops above 800m:** 10% or less, improving to 40% in the west, 80% in the east.

**Visibility:** Good or very good below cloud base, but cloud extensive above 700-800m in the morning. Cloud breaks developing in the afternoon and evening, these most extensive and long lasting across eastern Aberdeenshire and the Angus hills, breaks often fleeting in the hills around Braemar.

**Forecast for Friday 05 Nov 2021**

**Met Office Aberdeen Meteorologist's View**

Fresh winds at munro level, combined with damp conditions in the morning will give a noticeable wind chill.

**Forecast for Saturday 06 Nov 2021**

**Weather:** Rain and low cloud spreads east in the early hours, the rain often light and patchy through the morning, but turning heavy and persistent for a couple of hours around midday. A sharp clearance to sunny then clear spells and a few blustery showers in the afternoon and evening. Severe gales across the tops, perhaps storm force winds at times.

**Maximum wind:** Southwest 30 gusting 40 mph soon increasing to 40 gusting 55-60 mph, perhaps brief gusts to 70 mph across the higher munros in the afternoon.

**Chance of cloud free mountain/hill tops above 800m:** Nil in the morning, 80% in the afternoon.

**Visibility:** Generally poor in the morning in rain and low cloud, bases around 500m. Becoming very good in the afternoon with patchy cloud briefly lowering to around 900-1000m at times.

**Temperature:** **Glens:** Plus 6 Celsius rising to 11 Celsius.

**At 800m:** Plus 6 Celsius falling to plus 3 Celsius in the afternoon.

**Freezing level:** Well above the summits, dropping to 1100m late afternoon.
